

Expense Policy – Meridian Analytics Inc.

Purpose

This policy governs how employees incur and report business expenses on behalf of Meridian Analytics Inc. All expenses must be reasonable, necessary for business purposes, and properly documented.

Approval Limits

Expenses under \$100 may be self-approved by the employee and submitted for reimbursement. Expenses between \$100 and \$1,000 require manager approval. Expenses above \$1,000 require both manager and Finance Director approval before being incurred.

Receipts

Original itemized receipts are required for any expense over \$25. Credit card statements alone are not sufficient documentation. Receipts must be uploaded to the expense system within 14 days of the transaction.

Non-Reimbursable Items

The company will not reimburse personal entertainment, traffic or parking fines, spa or gym charges, or alcohol purchased without a client present. Any exceptions must be approved in writing by the Finance Director.

Corporate Cards

Employees who travel frequently may be issued a corporate card. Corporate card transactions must still be logged in the expense system with a business justification, even though no reimbursement is required.
